

CROSSBREED[®]
HOLSTERS

HOW IT ALL BEGAN....

CrossBreed Holsters Founder:

Mark Craighead

July 14, 1969 - August 24, 2012

CrossBreed® Holsters, LLC was started in 2005 by Mark Craighead. An avid shooter, re-loader, and CCW permit holder, Mark was introduced to firearms by his father as a young boy. His interest and involvement with firearms, particularly handguns, continued throughout the years. Through much trial and error, Mark became familiar with holsters, learning what worked and what did not. After collecting the proverbial “box of holsters”, Mark decided to design his own and incorporate the best features and discard all of the non-functional design elements. The result of these efforts had Mark hand-crafting a new breed of holsters. Within just a couple of years, Mark’s holsters had achieved such popularity that his company, CrossBreed® Holsters, gained national recognition as a maker of some of the best and most functional concealment holsters available on the market today. Each holster is hand made and hand molded by craftsmen personally trained by Mark. They continue to pass on those skills, tradition, and attention to detail to the new generation of craftsmen that have joined the company. CrossBreed® Holsters raised the standard for customer service in the holster industry by offering a two week try-it-free guarantee and a lifetime warranty on most items. This service continues today with each and every holster that goes out the door. CrossBreed® Holsters’ customers are customers for life.

Mark was often asked about the origin of the name CrossBreed® Holsters. He was never ashamed to answer that. Although there is some reference to the hybrid nature of his designs, the larger meaning behind his company’s name references the Lord Jesus Christ and His sacrifice upon the cross which was made for all mankind. Mark was called to be with his savior on August 24, 2012. At a young age of 43, Mark touched many lives with the success of his business and in his own way, he Carried the Cross for many of his friends and family. In an interview before his passing, Mark was asked what he would most like to be remembered for and in his way of always thinking of others first he stated: “Touching other people’s lives in a positive way and making a difference. Because that, no matter where you are at in life, is really more important than business success, finances, any of it! I don’t care what your financial level is. When you learn to bless other people, you truly get blessed yourself.” Mark’s passion for his business, his customers, and the industry was great and we honor Mark with every holster that is crafted for you, the customer. The Craighead family would like to thank you for your continued support of CrossBreed Holsters, they are committed to promoting that same passion throughout the company as they continue on with Mark’s vision of providing the absolute best concealed holster on the market today.

WHICH HOLSTER IS BEST FOR ME?

While that is an individual question, here are some general guidelines...

SuperTuck® - Overall the best choice and most popular model. It is adjustable and tuckable. The SuperTuck® was intended for all day, every day carry. If you are right handed, it can be worn from right at the hip to the 5 o'clock position. However, it is not designed for crossdraw or appendix IWB carry.

If the SuperTuck® does not accommodate your firearm or you are looking for different options, CrossBreed® Holsters offers a wide variety of IWB and OWB Holsters, Ankle Rigs, as well as alternative holster options. These include the Modular Belly Band, Last Ditch, and the patented Bedside Backup. We are positive you will find the perfect holster that fits your individual needs.

Founder Mark Craighead best summarized what makes CrossBreed® Holsters special to their customers...

“When you pull your holster out of the package, what I want you to feel is quality; and that’s what we deliver. The moment you touch it, I want you to understand that that was made for you.” -Mark Craighead

EXECUTIVE BELT

- *Founder's Series* -
CROSSOVER BELT

- *Founder's Series* -
SUPERTUCK

The Founder's Series was designed to commemorate the legacy of our Founder, Mark Craighead.

From the custom logo to the unique leather used in every Founder's product, the Founder's Series is meant to give you the most comfortable carry of any CrossBreed® holster. The CrossBreed® Founder's Series is 100% vegetable tanned leather using no dyes or lacquers. The hides then have natural oils and tallows applied under pressure giving each hide and each piece a unique and distinctive appearance. The leather pieces range from a dark chocolate brown to a lighter tan with accented grain. The natural oils accent the grain and structure of each piece, resulting in a beautiful piece of leather that will withstand moisture, sweat, and environmental conditions. These oils also aid the leather in forming to your body when worn, resulting in a very quick break in period. Due to the natural characters of the leather, each piece will show wear from daily use. Over time these marks will accent the rustic feel and look of the Founder's Series.

The Founder's Logo is going back to our roots when Mark Craighead stamped a simple cross on each holster to symbolize his faith and devotion. We have combined the original cross stamp and Mark's signature to set apart the Founder's Series of holsters and belts.

PREMIUM LEATHER OPTIONS:

Making the best holster on the market means doing a lot of little things that other companies do not. To ensure top quality finished goods, we start with top quality components. We are proud to offer three different and distinct leather options, selected or tanned especially for CrossBreed® Holsters to suit each individual's needs and comfort.

Hand Dyed Cowhide Black

Our Hand Dyed Cowhide is selected especially for CrossBreed® Holsters by our leather supplier. We dye it black and buff it to a perfect finish by hand. The leather's superior quality is the key to offering great stability combined with extreme comfort.

Natural Horsehide

Comes from hides tanned in USA and made from the extremely sought after Shell Cordovan and used to make some of the finest leather products in the world. Horsehide is a more dense, tighter grained leather making it more moisture resistant than other types of leather.

Founder's Series

The CrossBreed® Founder's Series is stamped with the founder's signature logo and is 100% vegetable tanned leather using no dyes or lacquers. The hides then have natural oils and tannins applied under pressure giving each hide and each piece a unique and distinctive appearance.

IWB HOLSTERS

[INSIDE THE WAISTBAND]

SuperTuck®

The Crossbreed® Holsters' SuperTuck® continues to be the leader in the industry of IWB holsters. It is our most popular rig and is adjustable for ride depth AND cant. Often Imitated, Never Duplicated, Crossbreed's® hand molding process sets Crossbreed® Holsters apart from all other kydex holsters and ensures a perfect fit and retention each and every time.

With its "tuckable" capability, the SuperTuck® allows you to conceal comfortably in a pair of shorts with an untucked shirt as well as your best business suit with a tucked in dress shirt.

MiniTuck®

The MiniTuck® is designed and ideally suited for smaller firearms such as the Ruger LCP, Sig 238, and other pocket pistols. The MiniTuck® is stable, comfortable and extremely concealable. It features a premium leather backing with a molded and mounted kydex pocket and includes a "combat cut" standard on each holster. This holster is designed to be carried towards the rear of your draw side.

Freedom Carry

The most versatile IWB holster in the CrossBreed® lineup. The slim design of this holster gives you the freedom of a comfortable carry, while being supported by the locking clip design.

Appendix Carry

Designed for popular small to medium framed firearms. Features a leather backer and a CrossBreed® hand-molded pocket to ensure a perfect fit. It comes set at a straight drop for optimal carry at the front of the body on the strong side, but the versatile design allows the cant to be easily adjusted for the cross draw position.

Mini Appendix Carry

With softer leather and smoother corners, the Mini Appendix Carry Holster was designed specifically for smaller framed firearms. This holster has no cant, giving it the perfect draw angle for carrying on the front side of the body.

MicroClip

The MicroClip is a single clip design IWB holster weighing less than 4 oz. This allows it to offer a minimum footprint at maximum comfort for small guns. The MicroClip is well known for working with the Ruger LCP, KelTec P3AT, Kahr P380 and similar guns.

QwikClip

The QwikClip is designed to be put on and taken off with ease. It features a single wide clip which slips over the belt and pants to allow on/off without threading the belt. Just loosen your pants a bit and slip it on. It has three settings: FBI, straight, as well as the cross-draw position.

Light Defender Series 2.0

Redesigned with a smaller backer, the Light Defender Series 2.0 Holster allows for IWB concealed carry of a light-bearing firearm. This is the only holster that is able to accommodate a full-size rail-mounted light.

OWB HOLSTERS

[OUTSIDE THE WAISTBAND]

DropSlide

The DropSlide features the 1.75" belt slots that work well with 1.25" and 1.5" belts. It's designed to keep your firearm tight against your body. The leather backer was designed to allow for a lower riding, comfortable outside the waistband Carry.

SnapSlide

With its flat back and well spaced belt loops, the SnapSlide pulls your gun in very close, offering maximum concealment. The tall and wide platform is also very stable. It will not sag or droop away from the body in the grip area as so many generic belt holsters tend to do. Your gun stays flush against you and out of the way, completely hidden under a loose garment until you need it.

MiniSlide

The CrossBreed® MiniSlide is intended to offer the user a close riding, very concealable option for small guns such as the Sig 238, Ruger LCP and S&W BodyGuard 380 series.

SuperSlide

Staying in tradition of the IWB SuperTuck®, the comfort of the SuperSlide is second to none. The design of the holster pulls the gun and grip in tight to the body, with the proper concealment garment the gun and holster are virtually undetectable. The SuperSlide allows you to carry in the normal position on your strong side or, if you prefer, it can also be carried in a crossdraw position.

MaxSlide

The MaxSlide by CrossBreed® is designed for those times you want to carry your Judge or Governor while out in the woods hunting, camping or hiking. The MaxSlide 3 slot holster can be worn in one of two positions. Most common is the standard behind the hip with a slight forward cant. The second option is a slight reverse cant for crossdraw wear. With the size and weight of the Judge and Governor, the drawing grip is of utmost importance in controlling the firearm.

A collection of magazine carriers and magazines is displayed on a dark wooden surface. In the foreground, a black magazine carrier is open, showing its internal compartments. Behind it, another black carrier is partially visible, and a tan-colored carrier is also present. Several magazines are scattered around, some standing upright and others lying flat. The background is dark and textured, emphasizing the items in the foreground.

MAGAZINE CARRIERS

[IWB | OWB | POCKET]

Carrying spare mags is always a good idea and frankly, sometimes a life saving decision. CrossBreed® Holsters is pleased to provide multiple options for doing so.

IWB Mag Carrier [Single & Dual]

You carry your firearm Inside The Waistband, and CrossBreed® makes it easy and comfortable to bring along extra ammo. An IWB Mag Carrier allows you to carry up to two extra magazines in a hand-molded CrossBreed® Holster.

Gideon Pocket Mag Carrier

With the Gideon Mag Carrier you will feel confident knowing no matter where you are or what you are wearing you will have an extra mag at your finger tips. EJ Owens of Legally Concealed worked closely with CrossBreed Holsters to design the perfect pocket mag carrier for concealed carry.

OWB Mag Carrier [Single & Dual]

With a cut down backer, optional forward cant, and more exposed magazine to grasp, reloads are swift and sure when using our OWB Mag Carriers. Great retention ensures your mag stays put and a high ride keeps it concealed under a light cover garment.

Speedloader Case

The reduced ammo capacity of revolvers makes it more likely that you'll need to reload in a hurry, and the best way to do that is by using a speedloader. But how do you carry one so that it's both hidden and easy to access? With the CrossBreed® Speedloader Case.

ALTERNATE CARRY OPTIONS:

Ankle Holster

Ankle Holsters by CrossBreed® offer a deep concealment option for small to medium firearms, including some revolvers. These holsters, designed by the CrossBreed® Team, offer a padded ankle section for greater comfort and an adjustable Velcro® Brand Fastener thumb break. This ensures a secure carry in rigorous activity and the ability to draw your firearm with ease. Other features include a full calf support strap with height adjustment to ensure a proper fit and to keep the firearm from riding down.

Ankle Holsters by CrossBreed® are available in micro, small, and medium sizes to accommodate a wide range of firearms. Please check the gun listing on our website to find the correct holster to fit your firearm.

Pocket Rocket

The Pocket Rocket is a great way to conceal and carry one of the oh-so-popular micro pistols such as the Ruger LCP, Sig 238, KelTec P3AT, and similar size firearms. The holster is designed to fit in almost any pocket. The kydex mold gives good retention of the firearm so it will not fall out of the holster. The Pocket Rocket features a square leather backer made to be positioned AWAY from the body, to yield

Cargo Pocket Rocket

The Cargo Pocket Rocket is a larger version of our popular Pocket Rocket and is designed to holster a medium size, single stack firearm including the Glock 43 and Springfield XDs in cargo pockets. It combines a horsehide leather backer and a handcrafted kydex pocket to cover the trigger guard. This ensures your firearm is safe and secure when holstered. The leather is backed with Pac Skin™ to keep the holster from sliding around in your pocket.

GUN BELTS

[EDC | TRAINING | DRESS | LADIES]

The best holsters work better when supported by a solid belt designed specifically for carrying a firearm. CrossBreed® Belts offer the perfect pairing of style and function featuring the best belt materials and exceptional buckle quality.

Executive Gun Belt

The Executive Gun Belt is a fashionable and professional option for those who favor a more polished look. The belt is custom made to your exact specifications using your choice of two hand oiled leather colors, five stitch color selections, and three buckle finishes embossed with a CrossBreed® logo.

Gunmetal Gloss

Gunmetal Matte

Gunmetal Bronze

Crossover Gun Belt

CrossBreed® has designed a sturdy yet dignified slide buckle that is stylish enough for formal wear or robust enough to work in the woods. The belt is custom made to your exact specifications using your choice of two hand oiled leather colors, five stitch color selections, and six buckle finishes.

Flat Black

Magpul Flat Dark Earth

Polished Gun Metal

Brushed Stainless

Tungsten

Midnight Bronze

Classic Gun Belt

The Classic Gun Belt is crafted with two layers of top quality leather; recessed stitched cross grain. This creates a strong, sturdy belt with superior support for your carry needs and flexibility for comfortable everyday wear. These are available in three leather options and three buckle finishes.

Nickel

Stainless

Brass

Western Belt

This belt now features a tasteful double stitch design. The belt looks great with casual western attire, or select the plain buckle for a more traditional dress option. This comes with your choice of buckle, hardware, and stitching colors.

Instructor Belt w/ Velcro®

This features a Velcro® Brand Fastener instead of a hook and hole design with four inches of adjustment for an exact fit. This buckleless design boasts comfort, a sharp and professional appearance, and the utmost stability and comfort.

Ladies Reversible Carry Belt

Designed by the ladies of CrossBreed® to specifically meet the needs of female carry, this belt is both high fashion and high function; showcasing a combination of features you will not find anywhere else.

Reversible Nylon Belt

This 1.5" dual layer nylon belt is constructed of rip-resistant nylon with 5 rows of stitching to provide needed support when concealing. They are available in Coyote Brown & Black or OD Green & Black.

Reversible EDC Underbelt

This belt combines our top quality, double layer design with a Velcro® Brand Fastener lining allowing for use with a duty belt or reversed as a great concealed everyday carry belt.

Responder Series Crossover Belt

This belt is the perfect combination of CrossBreed's reputation for rugged reliability coupled with our support for First Responders nationwide and is available in the Thin Blue Line Edition or the Thin Red Line Edition.

MODULAR SYSTEMS

[HOLSTERS | CARRIERS]

Pac Mat & Mini Pac Mat w/ Modular Holster

Keeping your firearm safe and secure at all times is essential when carrying concealed, and is especially important when carrying off body. The Pac Mat offers a way to carry in briefcases, messenger bags, bug-out bags, backpacks, etc.

The Pac Mat is a combination of a CrossBreed® Modular Holster and a sturdy kydex flat panel lined with loop Velcro® brand fastener. The Modular Holster ensures that your firearm stays secure while keeping foreign objects out of the trigger area. Its position on the flat panel can be adjusted to accommodate different bags and draw preferences. The same holster can be used with other modular systems from CrossBreed®. The Pac Mat is available in Right or Left hand draw.

The Pac Mat by CrossBreed® is available in two sizes.
Pac Mat: 8"x 9" or Mini Pac Mat: 6"x 6".

Modular Belly Band w/ Modular Holster

CrossBreed® Holsters is proud to announce the second generation of the Modular Belly Band in conjunction with I.C.E. Firearm Training Services and Rob Pincus. The Modular Belly Band incorporates an additional length of elastic band that extends over the CrossBreed® Modular Holster. This provides additional support for the holster and firearm. The additional length of band firmly secures smaller firearms while offering the necessary support for wider and heavier firearms.

Modular Holster

The Modular Holster provides positive retention and absolute stability for your firearm when mounted to our Modular Systems. A nice bonus is that it can also be mounted on various surfaces with applied Velcro® Brand Fastener such as the underside of a desk or the console of a car.

Purse Defender w/ Modular Holster

The Purse Defender is designed to go inside your favorite purse or hand bag, so no more ugly concealed carry purses! The Velcro® brand fastener lined kydex panel fits securely in your purse or other bag, and keeps the gun and purse stabilized. This means that it will not spill over or cause your purse to tip like many of the concealed carry purses on the market today. Combined with our handcrafted Modular Holster, the Purse Defender ensures your firearm is safe, secure, and always in the same spot in your purse or bag.

The Purse Defender system comes complete with the L-Shaped panel and a CrossBreed® handcrafted Modular Holster. It is available in left or right hand and for a wide variety of small to medium sized handguns. The Purse Defender measures 9" wide x 6" tall with the base of the assembly being 3" wide. Also available is the Small Purse Defender measuring 7.25" wide x 4.75" tall with the base of the assembly being 2" wide.

Bedside Backup w/ Ohai Modular Holster (Included)

Our unique design offers a modular and secure method for keeping a firearm within easy reach at your bedside. The BedSide Backup also folds flat for easy packing and traveling for nights in those motels that are not quite in the part of town we thought they were.

Ohai Modular Holster

The Ohai is a vast improvement over the floppy, cloth or nylon holsters found in CCW bags. It provides positive retention and absolute stability for your firearm. When you reach in for your gun, it will be there, not shifted around to some corner of the bag. The Ohai can also be mounted on various surfaces containing loop-side Velcro® Brand FASTER.

Ohai Mag Carrier

Having a spare magazine available is essential on the range or in the event you have to protect yourself or your family. Complementing the Ohai Holster, the Ohai Mag Carrier will fit next to your gun in your carry bag, on your Bedside Backup, or anywhere you may need to secure it.

Last Ditch

Designed at the direct request of several law enforcement officers, the Last Ditch allows the uniformed police officer to carry a back up gun within easy reach on his vest and completely concealed. Based on our popular Ohai Modular Holster, the Last Ditch is intended to attach to the Velcro® portion of an officer's ballistic vest and can be further secured by your vest's elastic closure band.

MaxOhai

Expanding on the popular Ohai Modular Holster, CrossBreed® Holsters now offers the MaxOhai specifically designed for the S&W Governor and the Taurus Judge.

Modular Mag Carrier

Modular Mag Carriers can be used with the Crossbreed® Modular Systems. These carriers are backed with hook Velcro® and will stick to any loop Velcro® surface.

Modular Handcuff Carrier

Designed at the direct request of several law enforcement officers, the Modular Handcuff Carrier allows the uniformed police officer to carry a backup set of handcuffs within easy reach on his vest and completely concealed.

Modular Flashlight Carrier

The Modular Flashlight Carrier allows you to have your light in a set location mounted to the Cross-Breed® Modular Systems or any place you decide to put an optional piece of loop side Velcro®.

Modular OC Carrier

The Modular OC Carrier allows you to have your OC in a set location mounted to the Crossbreed® Modular Systems, or loop side Velcro®.

ACCESSORIES

[CLIPS | HARDWARE | VELCRO]

SnapLok Clip: Black or Brown

This powder-coated steel clip is designed to go over the belt, and hold your holster secure. This allows you to put on and take off your holster without removing your belt. (Sold In Singles)

J Hook Clip

This clip goes down BEHIND the belt and then hooks up at the bottom preventing the holster from drawing out with the gun. This clip is more discreet than the SnapLok.

V Clip

This clip is placed on the pants and sits completely behind the belt. The front of the clip is faced with "hook" Velcro® and needs a Velcro® backed belt to attach to.

QwikClip Clip

Keeping a spare clip on hand is always a good idea. This clip is designed for the Qwik-Clip holster only and is not compatible with any other holster offered by CrossBreed®.

Replacement Holster Hardware

This is a set of mounting hardware for our various holster and mag carrier clips. The set of hardware is a great backup in case a clip were to fail.

Loop Velcro® Brand Fastener

We have three different options to best suit your needs. Qty 2, 6.5" x 1.5" - To be attached to the back of a current belt. Qty 1, 7" x 6" - For the Last Ditch, Belly Band or Purse Defender Holster. Qty 1, 14.5" X 6" - For the Bedside Backup or Ohai Holster.

Hook Velcro® Brand Fastener

Velcro® Brand Fastener, hook side. Available in 6" x 6".

UltiClip 3

The UltiClip 3 is the perfect addition to any of our holsters and incorporates a slotted center and second attachment hole to offer a more versatile mounting solution.

CROSSBREED APPAREL:

Carry The Cross T-Shirt

These 50% cotton, 50% polyester shirts are cool, comfortable and have high quality printing. Available in black.

Long Sleeve T-Shirt

These 50% cotton, 50% polyester Gildan shirts are quite comfortable and have high quality printing. Available in navy blue.

A HIGHER STANDARD

CrossBreed Holsters has raised the standard for customer service in the holster industry through its two-week, try-it-free guarantee and a lifetime warranty*. Those standards continue today with every CrossBreed holster that is manufactured and sold. CrossBreed Holsters ensures that every customer is a customer for life. *Lifetime warranty does not apply to all items.

YOUR TIMELINE

Leather: First we hand select your leather. A thorough detailed inspection follows and every piece that fails in any way to meet our incredibly high standards is discarded.

Pockets: The pocket (Kydex) portion of the holster is then hand fit to your specific weapon. Unlike others, we never use a mechanical vacuum which forms a generic pocket. Our craftsman then hand fit the pocket to the leather backer, making certain the exact angle of cant is achieved. Perfect weapon retention is verified by hand.

Completion: A final inspection confirms that your holster is worthy of being called a Crossbreed Holster.

Packing: One more set of hands packages your holster and double checks your address. After all the effort, we want to be sure it shows up where you want it!

Prices and products subject to change.
