# NO SAND? NO PROBLEM!

“THE FIRST REAL IMPROVEMENT IN FLOOD CONTROL SINCE SAND BAGS!”

## “DAM IT UP” BAGS

THE ULTIMATE FLOOD CONTROL

- ▶ Create a barrier around your home, pool, shed, garage, etc.
- ▶ No sand required
- ▶ Easy to use
- ▶ Easy to dispose of

Instant Protection  
**Just Add Water**

EXPANDS 4" IN HEIGHT

Super absorbent polymer is inert until activated by water. Create a barrier around your home that will not be used until needed. The “DAM IT UP” bags will absorb the water either from soaking with a hose, or waiting until mother nature rains (or floods) on them.

### FLOOD CONTROL SYSTEM

Earthquakes, Hurricanes, Floods, Sewer leaks, Plumbing troubles are all real problems that most of us are ill equipped to handle. “Dam It Up Bags are the perfect solution to all these problems. Super absorbent polymer SAP500 active ingredient is infused into the bags and they will remain compact and lightweight until you need them. Better and much more useful than standard sand bags, since no filling is required. They can be easily moved, stored, stacked and positioned in tight spaces. Use them as a barrier to protect entryways, divert moving water, as protection around door seals from wind and rain, seal off garage doors and protect plumbing. You can also roll up a bag and insert it into a drain pipe or toilet to protect your home from sewer waste entering through these appliances.

## ANME Show Special

Cannabinoids (CBD) are hydrophobic oily substances and, as such, are not naturally water soluble.

**We all know the saying, oil and water don't mix.**

Using Lipofusion™ technology  
CBD is **now** water soluble.

Our Broad-Spectrum Water Soluble Cannabinoid Powder is made using Lipofusion™ Technology to encase CBD actives in lipids that are bioidentical to our cell membranes, allowing the nanoliposomes to deliver CBD more effectively at a cellular level.

- \* Nano-encapsulated hemp extract with naturally occurring CBD
- \* 25 mg Per Serving
- \* On-The-Go Stick Packs
- \* Broad-Spectrum
- \* 100% Colorado Hemp
